## List of the 5 most relevant scientific papers published in the last 5 years

- 1 T. Yoshida, H. Suzuki,  
“Omni-directional mobile platform for new industrial robot”,  
Proceedings of 33rd Fuzzy System Symposium, pp. 659-660, 2017. (In Japanese)
- 2 K. Oomori, H. Suzuki,  
“Obstacle recognition using attention-GA”,  
Proceedings of 32nd Fuzzy System Symposium, pp. 399-400, 2016. (In Japanese)
- 3 T. Yoshida, H. Suzuki,  
“Real-time self-localization for RoboCup Middle-Size-League”,  
Proceedings of 32nd Fuzzy System Symposium, pp. 397-398, 2016. (In Japanese)
- 4 Y. Yasohara, K. Shimizu, H. Suzuki,  
“Development of ball handling mechanism for RoboCup MSL”,  
Proceedings of 30th Fuzzy System Symposium, pp. 616-617, 2014. (In Japanese)
- 5 S. Yamada, K. Matsushita, H. Suzuki,  
“Construction of self-localization method using compass map”,  
Proceedings of 29th Fuzzy System Symposium, pp. 317-318, 2013. (In Japanese)
